23 February 1981

MEMORANDUM FOR: Director, Office of Personnel Policy, Planning,
and Management

ATTENTION: Chief, Military Personnel Branch

FROM:

SUBJECT: Request for Military Detailees - Linguists

1. Paragraph 4 contains a request for your consideration.

3. We have been trying since August 1980 to find and hire qualified linguists to handle this particular requirement since our on board staff personnel cannot be spared from their ongoing duties. We have so far been able to hire only one translator specifically for this project. In order to get this project moving, the assistance of your office is requested to obtain the services of 8-10 military linguists who are qualified to translate

They should have level 4 (high) skill in the reading and comprehension of Spanish. The linguists can be obtained from any of the military services, although officers are more likely to have the kind of experience and background most applicable to the nature of the project. We would require the services of these linguists for at least one year.

4. It is requested, therefore, that the necessary action be taken to obtain 8-10 Spanish linguists on a reimbursable detail basis from the military services for a period of one year.
